STOCK PRICES DECLINE ON HEAVY REALIZING.

INFLUENTIAL SPECULA TORS TAKE PROFITS.

Coalers Furnish Principal Support to Market in Spite of Decreased Earnings.

New York, Sept. 28.—The stock marks New York, Sept. 28.—The stock market was subjected again to-day to very heavy realizing, and prices are lower as a consequence, but it must still be said that the realizing was well taken and the fall in prices was by no means precipitate.

The movement was not accounted for by any new developments, either to induce seiling or to cause advances in the few stocks that showed strength. The strong stocks were believed to be supported to help the realizing in the general market. The operations were alleged to be almost wholly in the hands of professionals or of that class of wealthy speculators who make occasional campaigns in securities with the use of professional methods.

The coalers furnished the principal support for the market, although the August samings of the anthracite curriers proved very unfavorable, compared with the showing of some other railroads. This was a fair example of the disregard of news which characterized the movement.

spite of material retrenchment in the In spite of material retrenchment in the impense account for both the railroad and the coal companies, Reading's net earnings for August fell 1985,500 below those for august of last year, and those of Erie screased \$79,200. Ontario and Western had feeted sufficient economies so as to increase its August net earnings by a small margin. Yesterday this stock was the expetion, to show weakness in this group. It was hurt by further consideration of the plan by which the dividend is made enditional on a \$2,000,000 bond fissue. Reading, on the other hand, was the estimatay of the market, and was bid up min and again with rallying effect from declines caused by the profit-taking. The high-priced coalers were conspicuous, selawanna selling up to 200 on bidding 100-share lots.

Socia which have been the leaders of the room advance were freely sold to your advance were freely sold to your advance were freely sold to you this was especially true of United the steel preferred. The advance in stock has aroused skepticism, owing the lack of news to account for it, and the was perceived that recent buy-

much to do with making prices. On the other hand, Dec. met a better demand on the weak spots, partly from cash houses, and the difference between the Dec. and May was narrowed to 125% from 50 yesterday.

While cash prices in the Northwest were lower, the market here touched the high point of the day without apparent reason shortly after cash at Mineapoils had sold off 2°. News from the Northwest was not all beartisk there being reports of a better flour demand, a report that foreign bids on flour were 3d higher than yes terday and a message from Winnipeg that the largest milling concern in Canada was buying the cash, wheat there. But Duluth claimed there was no Eastern demand, and was offering to sell wheat back to Minneapoils. It was apparent miles had withdrawn from Northwestern markets. Duluth reported an increase of 130.666 but. At the close Minneapoils of 125.666 but. On stocks and Minneapoils of 125.666 but. At the close Minneapoils cash was quoted 2½c lower; at Duluth, 25c lower, and ed 2½c lower; at Duluth, 25c lower, and ed 2½c lower; at Duluth, 25c lower, and getting ready for fail median. At the close Minneapoils of 125.666 but. At the close Minneapoils of

CORN.

There was some semblance of strength in corn early in the session, Dec. the firmest, but prices finally gave way under firmest, but prices finally gave way under the influence of wheat weakness, and toward the last there were evidences of liquidation by the long interest. Accept-ances of old corn were small, but a little freer of new corn to arrive in Dec. Cash prices were the to the higher, ship-ping sales only 75,000 bu. Local receipts were down to 105 cars and the estimate 115 cars.

were down to less than the contract of the cars.

There was a large output of contract from the mixing houses for delivery on Sept. contracts, about 190,000 bu. Wrenn, Comstock, Lake and Spencer were early buyers, the first named taking Dec. and later selling by Pringle, Ware-Leiand and Wrenn, and buying by Cudahy Brothers.

OATS.

Oats held within a range of \$10 to \$10 and closed with May \$10 lower, and Sept. \$10 higher. Cash was steady to \$10 higher. shipping sales 75,000 bu, and country of-ferings were reported smaller. Receipts were only 12 cars and 171 are expected to-morrow. The best buying was by A. S. White and Updike, about 25,500 bu, each, and Fyfe-Manson soid. PROVISIONS.

Oct. lard was the strong feature in provisions. Shippers and shorts contended for the offerings, and the close was lichigher. In addition there were buying of Oct. and selling of Jan, lard by foreign houses. Other products ruled easy and quiet. Private estimates predict a decrease of 5,000 bbls. pork, 44,000 tons lard and 9,000,000 lbs. ribs in local stocks.

Powitry.

New York, Sept. 23.—Live Poultry—Receipts 6 cars Western and 1 car Seathern. About 3 cars more due for later in the week. The Hebrews tools stock freety, and while the volume of business was fairly large. It was not sufficient to affeor's line heavy supply, and a complete clearance is not expected. Demand for the week was pretty well over, but some stock may go out to morrow. Prices without one particle of cleanse.

I presed Poultry—Receipts 1.13 okes. The february and the moreological that morning were not heavy, and with me unsattshed demand for fancy large scalded and fancy large dry picked chickens, it was possible to resilize a slight premium on such, but a creat bulk of the stock arriving was only of fair quality and sold from 12818, on best dry picked and scalded ordinary scalded not exceeding 114,8112. Fowle, while not plenty, showed no imagovement in quality, and while it was possible to realize a premium for closely-graded stock, most of that arriving sold better straight at 113,6112. While scalded fowls, unless fancy, were neglected. Turkeys arrived more freely and sold at lower prices. Spring ducks worked out at unchanged prices. Other contern steady. Strictly prime squabs sold more freely, but few arrived and market about sustained. Ired—Old roosters, dry-picked, 114,95 c; scalded big. Other quotations unchanged.

SUMMARY OF ST. LOUIS MARKETS

everal bullish indications in the domestic and foreign news local conditions favored he selling side. The principal factor in the decline was the fact that wheat was being shipped here from the Pacific Coast and that some of it was of contract grade. This in connection with heavy receipts here and in the northwest had a very depressing effect on the market. There was brisk selling also in the Minne-apolis and Chicago markets. Foreign indications were generally favorable to the buying side. Cables were firm and Paris was especially strong on reports of a shortage in the French crop. Local sentiment was bearish through the greater portion of the session. Though there were occasional rallies on short covering the buying demand was at best only desultory and the outside inquiry practically amounted to nothing. Professional longs were on the seiling side and they showed no disposition to come back into the market on the decline which was forced by

their liquidation.

Corn was easy on good weather and in sympathy with wheat. Receipts were moderate, but there was not much of a cash demand. Cables cared off after a strong opening.

Dec. wheat opened he off and closed thatthe off.

Dec. corn opened %c off and closed %c off. Dec. oats closed unchanged.

Receipts of produce were in fair volume. Prices of fruits and vegetables were cenerally stendy. Tractions were the active feature on the local stock exchange. United Railways.

preferred, was under selling pressure.

Yesterday's bank clearings were \$8,224,934, balances \$467,870. Discount rates were steady between 45 and 6 per cent.

Spot cotton was %c lower in the local market,

WHEAT VALUES DECLINE ON BRISK LIQUIDATION.

RECEIPT OF CALIFORNIA GRAIN A FACTOR.

Foreign News Is Generally Bullish, but Local Traders Take

the Selling Side. Though cables opened higher and foreign news was generally bullish, the sentiment. in the wheat market was unmistakably

bearish. Local operators were not inclined to support futures, and selling was the or-der of the day. The receipts of Pacific Coast wheat in this market was regarded as a serious offset to the speculative bulls. buying was half-hearted and the outside demand was extremely light. Receipts here and at other primary points were large.

Dec. wheat opened 14c off, ranged from \$1.17 to \$1.18% and closed at \$1.174,61.17% asked.

Corn also was on the downturn. Weather conditions were generally favorable, and the weakness of wheat caused a sympathetic downward movement in the coarse grain, despite light receipts.

Dec. corn opened 14c off, ranged from 15%,647% and closed at 45%.
